

F360 Tracker Core v.10.02.00 Release Notes

Release date: 2024-03-26

ROT/F360 - High level content description

- Prioritize detections to cluster in order of importance
- Improvements to f_moveable flag behavior

ROT/F360 - Important information for project teams and integrators

- Minor change to vehicle info stream

Updates and fixes in this release

Update description	Impact	Related Problems, Features or Stories
F360 CORE TRACKER FUNCTIONAL UPDATES		
Prioritize detections to cluster in order of importance	• Minor increase in runtime • Detections will be clustered in a prioritized order with the most important detections clustered first	S DFD-2203 - [DetPrio] Finalize concept DONE
Modify f_moveable reset trigger limit	• f_moveable reset abs longitudinal position trigger limit changed • The limit change is only applicable to host speed < 0.5m/s • The limit is changed from 30m to 15m	F DEX-3523 - CLONE - STLA Thunder IFV [21.90] Flame - ACC slow acceleration after Stop and GO WIP
For long objects, require detections to be close to reference point for detections to valid as range-rate inliers	• Adds robustness to heading estimation of undersegmented objects	S DFD-2196 - Resolve truck rotating into host path in tunnel DONE
Improve Object based WaterSpray detector (OWS) - WS detection selection based on RCS - Tailored for SRR6+	• Improved performance during rainy weather conditions. Reduced risk of false targets being created due to water spray.	F DEX-2983 - Improve Object based WaterSpray detector (OWS) PLANNED
Extend split logic max range -Split logic is now active up to 80m vs previous 75m	• Objects may be split at further range than previous, reducing undersegmentation	F DEX-3494 - CLONE [STLA Thunder Scale1] KX Mule - Leaf - ACC Target Drop IDENTIFIED S DFD-2187 - [DEX-3494][STLA] Root cause ACC Target Drop DONE
RESIM/WRAPPER/TRACKER PC		
fixed incorrect sync in resim	None	S DFD-2210 - [BMW25] i360 logs resimmed with i380 only use part of the detections DONE
Integrated OCG v1.6 in resim /Tracker PC	None	S DFD-2216 - Integrate OCG 1.6.0 to dev branch DONE

Updated sensor readers to support thunder dbc v12	None	S ELG-348 - Update sensor reader to support thunder dbc v12 DONE
Update blockage status in DRA_wrapper	None	S DFF-2229 - [DRA] Error status due to incorrect blockage status on TPC DONE
Fix resim init_from_log mode issue related to sensor index mismatch	None	S DFF-2209 - Fix resim init_from_log mode issue related to sensor index mismatch DONE
Mapping SRR7 elevation confidence from 1 to 3 This sensor only has a range from 0-1 for the elevation confidence, other sensors have 0-3	None	S DFF-2206 - handle SRR7 elevation confidence being reported as 0-1 DONE
LOG STRUCT UPDATES/INTERFACE changes		
replace status with reduced_status in Map_ROT_Object_Status	The signal "status" in ROT_Object_List_Info_T has a closer connection to "time_since_published" rather than "time_since_created". In effect this means that objects that are new to the ROT object list will have status 1/New rather than whatever status they have internally in the tracker. This is not a change in the interface, just a slight change as to how an existing signal is computed.	S DFF-2112 - replace status with reduced_status in Map_ROT_Object_Status DONE
Added filtered_yaw_rate_rad signal to vehicle info stream (stream 4)	None	S DFF-2212 - STLA Thunder resim repro followup DONE
SOFTWARE QUALITY, COMPLIANCE AND REFACTORING		
CI & AUTOMATION		
Add the verify_steps.txt artifact to archive on artifactory as well	None	S DFF-2205 - Investigate and try to fix HIL job DONE
Misc		
Added missing stream definition for stream 150 v9	None	S DFD-2186 - [Merge] Add missing stream definition txt DONE
increase num posn clusters to 150 in variant C (also in 10.0.1)	Tracker is able to create more clusters per cycle	S DFD-2182 - Increase num posn clusters in variant C to 150 DONE
Updates to integration guidelines -renamed integration_guideline to rot_integration_guideline -added stream numbers to log structs and ordered them by number -added a note on SRR7+ confid elevation -added clarification on host speed		S DFF-2133 - Release ROT 10.2 and RSPP if applicable WIP
Bug fixes		

JIRA link 10.02.00 Features, Stories, Problems

Key	Summary	T	Created	Updated	Due	Assignee	Reporter	P	Status	Resolution
DFF-2216	Integrate OCG 1.6.0 to dev branch	S	Mar 18, 2024	Apr 09, 2024		Froberg, Johan	Froberg, Johan		DONE	Done
DFF-2212	STLA Thunder resim repro followup	S	Mar 13, 2024	Apr 09, 2024		Xu, Wenbo	Froberg, Johan		DONE	Done
DFF-2210	[BMW25] i360 logs resimmed with i380 only use part of the detections	S	Mar 12, 2024	Apr 09, 2024		Xu, Wenbo	Froberg, Johan		DONE	Done
DFF-2209	Fix resim init_from_log mode issue related to sensor index mismatch	S	Mar 12, 2024	Apr 09, 2024		Xu, Wenbo	Froberg, Johan		DONE	Done
DFF-2206	handle SRR7 elevation confidence being reported as 0-1	S	Feb 28, 2024	Apr 09, 2024		Xu, Wenbo	Froberg, Johan		DONE	Done
DFF-2205	Investigate and try to fix HIL job	S	Feb 28, 2024	Apr 09, 2024		Kiran, Deepak	Froberg, Johan		DONE	Done
DFF-2133	Release ROT 10.2 and RSPP if applicable	S	Dec 10, 2023	Apr 10, 2024		Froberg, Johan	Froberg, Johan		WIP	Unresolved
DFF-2112	replace status with reduced_status in Map_ROT_Object_Stat us	S	Nov 17, 2023	Apr 09, 2024		Xu, Wenbo	Froberg, Johan		DONE	Done
DFD-2203	[DetPrio] Finalize concept	S	Mar 26, 2024	Apr 09, 2024		Rychlowski, Lukasz	Sarvik, Anders		DONE	Done
DFD-2196	Resolve truck rotating into host path in tunnel	S	Mar 26, 2024	Apr 09, 2024		Hazard, Ludvig	Sarvik, Anders		DONE	Done
DFD-2187	[DEX-3494][STLA] Root cause ACC Target Drop	S	Mar 18, 2024	Apr 09, 2024		Hazard, Ludvig	Sarvik, Anders		DONE	Done
DFD-2186	[Merge] Add missing stream definition txt	S	Mar 13, 2024	Apr 09, 2024		Norrestad, Teodor	Norrestad, Teodor		DONE	Done
DFD-2182	Increase num posn clusters in variant C to 150	S	Mar 13, 2024	Apr 09, 2024		Hazard, Ludvig	Hazard, Ludvig		DONE	Done
DEX-3523	CLONE - STLA Thunder IFV [21.90] Flame - ACC slow acceleration after Stop and GO	●	Apr 02, 2024	Apr 10, 2024		Singh, Devrat	Aganovic, Ado		WIP	Unresolved
DEX-2983	Improve Object based WaterSpray detector (OWS)	F	Dec 09, 2022	Apr 09, 2024		Sarvik, Anders	Hazard, Ludvig		PLANNED	Unresolved
